

UNCOATED GROUND CALCIUM CARBONATE POWDER

We are a trustworthy company that delivers uncoated calcium carbonate powder to our clients with rich business expertise and experience. This powder is collected directly from our specialist workers via quarry. This material is used in the paper, plastic and rubber industries as whitening and filling agents. We use airtight bags and store them in our capacious warehouses before the last shipment to contain this uncoated Calcium carbonate material.

Description	UNCOATED GROUND CALCIUM CARBONATE POWDER	
Chemical composition	CaCO ³	98.5 %min
	Fe ² O ³	0.01 %max
	MgO	0.16 % max
	SjO ²	0.01% max
	Al ² O ³	0.02% max
	HCL Insoluble content	0.02% max
Physical properties	Whiteness	96.5 % min
	Moisture	0.2 % max
	Oil Absorption	24ml/100g
	pH	8.9
Partical size distribution	Average size (D50%)	2.5+/-0.3 micron
	Top cut (D97%)	10+/-2 micron
	Mesh	1250
Toxicological data	Refer to the product safety data sheet, Which is available on request	
First AID	Refer to the product safety data sheet, Which is available on request	
Handling and storage	Avoid generating dust keep bags closed when not in use store in tightly close and labelled bags and dry place. Keep away from strong acids. Keep away from food and beverages or smoking material.	
Packing	Net weight 25 kgs in PP Coated PE Bag
